

Cautions for using the beach (recreation, fishing, surfing etc.)

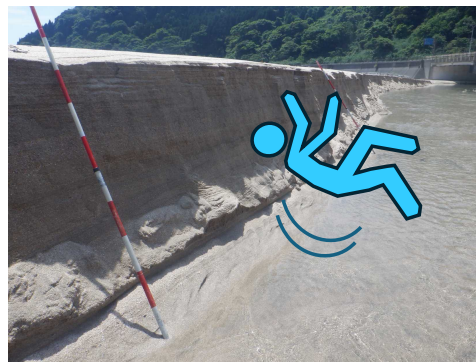

Okuragahama Beach

Waves and rivers can alter the state and terrain of this beach. Please be careful when using the beach in the following areas!

Caution 1: Sand Cliffs

Do not approach sand cliffs formed by rivers and waterways or coastal erosion

Erosion caused by waves, as well as rivers and waterways, can cause sand cliffs to form. Do not approach them.

Caution 2: Seawalls

Do not climb on top of seawalls

For your safety, do not climb seawalls under any circumstances.

Caution 3: Tetrapods

Do not approach tetrapods

Tetrapods may become unstable or fall due to powerful waves or during earthquakes. Do not approach them.
